Online Model for Predicting Ocular Myasthenia Gravis (OMG!)

https://myasthenia-prediction.app

- 50% of patients present with ptosis or diplopia

- 50% of patients have negative auto-antibodies

- 50% of patients ‚generalize', typically within 1 year (older patients at greater risk)

- If different doctors make different diagnoses, think about myasthenia!

NEVER SAY NEVER MYASTHENIA *007*
